Parallel & Distributed Computing: Lecture 4

Alberto Paoluzzi

October 19, 2017

1 Student Programming Projects 2017-18

2 Geometric Computing with Chain Complexes

3 Programming Tools and Environment

4 Work Breakdown and Assignments

Student Programming Projects 2017-18

Past Projects: Minerva & PLaSM

Novel Project: Larlib.jl

Geometric Computing with Chain Complexes

Metodology

Larlib.py Package

LarLib.lj package

Programming Tools and Environment

Literate Programming

Work Breakdown and Assignments

Subpackage List

People assignment
